

GLAZED SALTILLO TILE AFTERCARE

GLAZED SALTILLO TILES CAN BE CLEANED AS REGULARLY AS DESIRED. PLEASE FOLLOW THE BELOW TIPS TO ENSURE THE BEST CARE OF YOUR PRODUCT.

DO:

- Wash your glazed saltillo tile with warm water.
- Use soft cleaning, non-abrasive detergents.
- If unsure about the strength of your detergent, test a small area prior to applying to the entire surface.
- For removing stains, use a non- acidic cleaner and a moderately stiff plastic bristle brush. Test a small area to ensure that the brush does not scratch the surface of the tile.

DO NOT:

- Do not use cleaning agents containing hydro-fluoric acid.
- Do not use industrial abrasive machinery to clean your tile.
- Do not apply wax or other clear coat materials to the surface of the tile.
- Do not use steel wool to clean your tile.
- Do not powerwash your tile.
